The Use.

To find the value of 70 light Cobs, look down the first Column till you find 70, and against it is 15 *l.* 15 *s.* the value required. Now, to find the value of 97 light Cobs, look down the same Column for 90, and you will find 20 *l.* 05 *s.* then in the same Column find out 7, and against it is 1 *l.* 11 *s.* 6 *d.* then add these together, and that will be the value of 97 light Cobs, *viz.* 21 *l.* 16 *s.* 6 *d.* The same method for the weight.

9	1	19	4	2
10	2	3	9	0
15	3	5	7	2
16	4	7	6	0

The first Column is the number, the other the value. Example; if you would know the value of sixteen Cobs, look in the first Column for ten, which comes to 2 *l.* 6 *s.* 3 *d.* and then look for six, which is 1 *l.* 7 *s:* 9 *d.* which added together, makes 3 *l.* 14 *s.* which is the value of 16 Plate Cobs. The same rule for the rest.

If neceſſity urge, you may Let Blood, but be ſparing in Phyſick; and in a fine day, be ſure to prevent cold through careleſneſs, for the warm Air this ſeaſon is not laſting, but oft deceives us to our prejudice.

In this Month ſlimy Fiſh, Milk, and the like, that ſtop the Liver, and the Veins, and thicken the Blood, are to be avoided, as enemies unto Health.

Now advise with the honest and able Physician, it is good to Purge, and Let Blood; for in this month the Humors and Blood increase, and gross feeding breeds gross humors, therefore use meats of good digestion, and such as afford good nourishment to the body; forbear all things salt; sweet meats and drinks are commendable. Be sure you eat in the morning before you drink. Purge the Blood by Potion and Bloodletting.

The use of Physick is now seasonable, as also Purging, and Blood-letting. It is good to abstain from Wine, for several distempers will arise thereby, to the ruine of many. This month the pores of the body are open, and apt to receive Physick, therefore this is the best time to remove and prevent cause of sickness, or for speedy remedy in great extremity.
